

Chesapeake Currents

Volume 2, Issue 10

April 22, 2020

Dear Friends,

SOME GOOD NEWS: Last week the governors of both Maryland and Delaware have issued executive orders that now allow attorneys to witness and notarize documents remotely, but like they say in the ads, some restrictions apply. However, for the most part we can now get important documents signed. Because of Covid-19 we have seen an increased interest in Healthcare Powers of Attorney, especially for young adults; if you have a child living at home that is over the age of 18, you should consider such a power for the child -- sometimes being a parent is not enough.

On another note tomorrow we will be presenting a webinar on the SECURE Act, the new law that impacts all qualified plans [Ira, 401(k), 403(b)]. This webinar should be of particular interest to those with large plans that will ultimately be divided among few beneficiaries; and it should be of even more interest to those with a potential beneficiary who is not capable of managing their own financial affairs because of mental or physical disability, immaturity, or irresponsibility. It's not too late to register (see below).

As always, if you, your friends or family have any questions, we would be happy to hear from you; we sincerely appreciate your business and your referrals.

Regards,
John F. Robbert
